

Attorneys for Judicial Independence and A Public Financing Alternative

"We need an alternative to the money-chase that dominates so much of politics today, and we need to preserve the independence and impartiality of our state courts. We support a program that gives candidates for the state Supreme Court and Court of Appeals the option of financing their campaigns from a publicly supported Fair Elections Fund. It's a good place to begin providing an alternative to state candidates who accept strict spending and fund-raising limits."
