Use of Sunday Hours for March 2016 Primary

The total number of votes cast in a county on Sunday, March 6, was sometimes not impressive, but viewed as votes cast per hour of Early Voting opportunity, the Sunday option made good sense. On the list below, the hours shown are the total number of hours for all sites open on that particular day; for example, “27 hour (3 sites)” means 3 sites open for a total of 27 hours (each site was likely open 9 hours).
